

# H-Scribe Web Upload

SAFE AND SECURE H3+ AND H12+ HOLTER DATA TRANSFER

## PRODUCT FEATURES

- **Unlimited Number of Client Sites**

H-Scribe™ Web Upload securely and automatically installs on client computers, and connecting to new clients is easier than ever. Web-based application means no limitation to the number of remote client sites. Client updates are automatic and transparent.

- **Data Security**

Secure transfer (SSL) with authentication to protect patient's privacy allows regulatory and HIPAA compliance. In the event of transfer interruptions, a notification is displayed and remaining data can be uploaded at a later time.

- **Easy to Use**

Wizard-like user interface allows for simple H3+™ and H12+™ Holter recorder data transfer, patient demographic entry, diary event annotation, and recorder media preparation.

- **Flexible Customization**

Web server administrators can configure their own banner logo along with languages, customized text, server settings, server lists, and data storage locations.

- **Simple Installation**

Automatic web server installation plus web link for easy client computer installation and upgrades minimizes setup issues and administrative involvement.

HOLTER analysis system
