

# XRCISE CYCLE 1000

## DESIGN FOLLOWS FUNCTION

The **XRCISE CYCLE 1000** combines high-quality materials and contemporary design with unrivalled technology.

The patented toothed belt drive offers the precision of a chain with the advantages of extremely quiet operation.

This product was developed with the emphasis on wear-resistant mechanical parts with low maintenance costs as well as optimum functionality for user and patient alike.

### FEATURES:

- comfortable, wide step-through frame
- patented silent belt drive
- power output 5-1000 Watts
- blood pressure monitoring
- oxygen saturation
- electric saddle height adjustment
- coloured LCD display
- integrated 1-channel ECG
- suction unit
